

SkillWeld 2018

Passive Heat Test Coupon Marking Sheet

All test coupons must be welded with the welding process as specified for each joint type and in the correct weld position as stated in the Skillweld competition brief. All weld inspection/markings to be in accordance with BS EN ISO 5817 criteria D.

Single, short weld imperfections = -40% of available marks (i.e., 3 marks awarded out of 5, 6 marks awarded out of 10). Long/multiple imperfections = -80% of available marks (i.e. 1/5, 2/10). Systematic imperfections and not permitted defects = -100% of available marks.
